

NEW 16MM FILM RELEASE

THE MYSTICS

The shocking story behind the growing influence of Eastern Mysticism

Filmed on location in Trinidad, West Indies, Israel and the United States, "THE MYSTICS" takes a shocking but revealing look into the cloudy world of Eastern Mysticism. Featuring gurus, swamis, yogis and the followers of Transcendental Meditation, Hare Krishna, Yoga, Divine Light Mission and Zen Buddhism, "THE MYSTICS" is a film that should be seen by every concerned Christian.

"THE MYSTICS" includes the dramatic true story of former Hindu guru Rabi Maharaj who contrasts the darkness and oppression of Hinduism and Eastern spiritual experiences with the peace and liberty found in Jesus Christ. Actual testimonies are shared by Christians formerly involved in Eastern Mysticism including two former TM teachers who explain what's behind the secret TM initiation ceremony.

As "THE MYSTICS" draws to a close, the setting of Jerusalem, Israel vividly portrays the contrast between these false spiritual experiences and the cross and the empty tomb, and reveals that new life and fulfillment can only be found in the person of Jesus Christ.

Designed as an evangelistic tool, "THE MYSTICS" comes complete with instructions on how it can be used as an outreach opportunity for your church. Also available is a study guide and teachers guide on the Biblical view of the Eastern Cults called "The Mystical Maze" (complimentary copy, value \$2.95, comes with a rental order of "The Mystics.")

RUNNING TIME: 42 MINUTES

RENTAL PRICE: \$45.

MOODY FILMS CAN HELP YOU GROW!

Develop church attendance . . . Win others to Christ . . . Increase your awareness of God's creation

GET A "POWER LIFT" Moody Sermons from Science® films are powerful, effective, low-cost tools for expanding your church attendance, Christian education department, club, group, community outreach or personal ministry.

SEE MIRACLES IN MOTION. Moody captures on film the witness of creation. You'll see the secret society of the bee hive . . . the intimate throb of the human heart . . . the sixth sense of instrument flight . . . the intangible dimensions of energy . . . all woven into the eternal message of God's love for man through Jesus Christ.

ENJOY PROVEN RESULTS. Churches of every denomination throughout America and around the world have shown Moody Sermons from Science® films. They have won numerous industry awards and citations, and have been viewed by standing-room-only crowds at five World's Fairs.

People of all ages and backgrounds respond enthusiastically to the fascinating subjects captured on Moody scientific-documentary Christian films. Start using Moody films today!

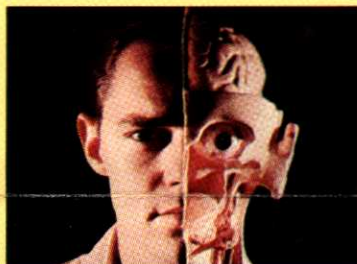

HOW TO OBTAIN MOODY FILMS

Moody 16mm, color films are rented from a Moody dealer for \$25-\$30 per day, with discounts for more than one day's rental. You can save from 10% to 60% for showing a series of films. Running time of all films is 28 minutes. *Sending back the reply card gets you the location of your nearest Moody dealer.*

SOME OF THE FILM TITLES IMMEDIATELY AVAILABLE.

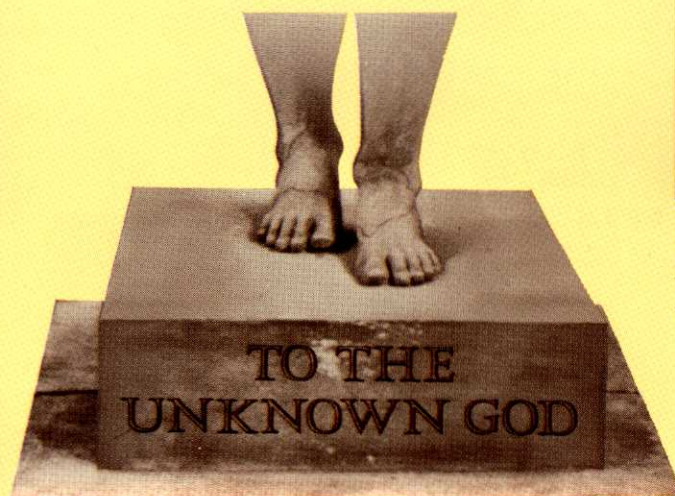

Film P-355: CITY OF THE BEES
An incredible insect city with its own work forces, police and sanitation squads, nurseries . . . even air conditioning. Reveals God's solution to the problems of behavior.

Film P-356: DUST OR DESTINY
Fish that lay eggs on land . . . bats that navigate in unlighted caves . . . the human eye and ear . . . other fascinating natural phenomena. Displays the inner workings of God's creation.

Film P-357: PRIOR CLAIM
Some of man's cleverest inventions preceded him in nature. Illustrates that God has a prior claim on human life.

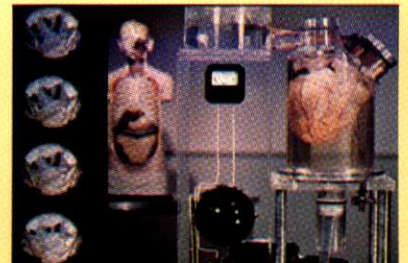

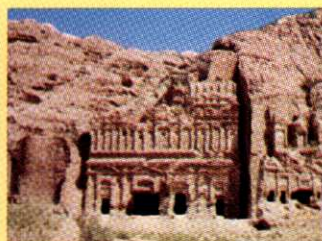

NEW FILM RELEASE

Why did the glory of ancient Greece fade? Why did the great philosophers, statesmen, writers, and artists of the Golden Age fail?

Dr. George Sweeting, president of Moody Bible Institute, narrates a profound story of moral decay. Of worship without spirituality. Of many gods but no True God.

"To the Unknown God" is a *must* for your outreach program.

Film P-367: RED RIVER OF LIFE
Shows first pictures of the inside of a beating human heart. Casts new light on the blood that was shed for sinners.

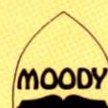

Film P-392: WHERE THE WATERS RUN
Our world is four-fifths water . . . flowing, coursing, changing, shaping life. Points up the nature of the spiritual water found in Christ.

**SPECIAL
FREE OFFER**

Return the reply card, and we'll rush you a full-color brochure describing all 20 of Moody's exciting *Sermons from Science®* films.

If you book a film showing with a Moody dealer within three months of returning the card, you qualify for a **FREE Film Promotion Kit**, to use with your church or group.

WITHOUT EXCUSE...

What penetrating words! To help you reach people in your community—people who are not interested, but “without excuse”—Moody Institute of Science offers its popular SERMONS FROM SCIENCE film series. These films present the wonders of God’s creation so convincingly that thousands stood in line to see them at recent World’s Fairs and Olympiads. Now, you can bring these exceptional films to your community to touch hearts and lives for the Savior.

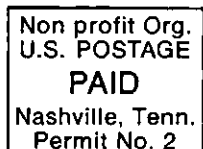

These “World’s Fair” films can reach your community for Christ in a most unique way. By showing a series of these films out where people are, you’ll reach many who otherwise might not hear the Good News. Show the films in your church, where you

work, in your home, medical facilities, parks, at service clubs and on campuses. And, you’ll think of other opportunities such as these, for a witness.

For a beautiful descriptive brochure featuring all the SERMONS FROM SCIENCE films, and to qualify for a free promotional kit, detach and mail the attached reply card. The brochure is loaded with ideas for an effective film ministry (where and how to use Moody films). It also shows the discounts to which you’ll be entitled when you book a series of six or more films.

Return the card today, and you’ll be on your way toward an effective outreach in your community using these award-winning motion pictures.

For the invisible things of him
from the creation of the world
are clearly seen, being understood
by the things that are made, even
his eternal power and Godhead, so
that they are without excuse.
Rom. 1:20

HERE'S HOW:**

Moody Institute of Science
INCORPORATED
12000 E. WASHINGTON BLVD.
JAMES W. ADAMS, DIV. MANAGER

WHITTIER, CALIFORNIA 90606
DR. IRWIN A. MOON, FOUNDER

Dear Friend:

In this brochure is a wealth of information that can make a significant impact in your community. I trust you will read it carefully. It tells of an approach to evangelism that is effective in communicating the gospel: so effective that of the 380,000 who visited the SERMONS FROM SCIENCE pavilion at Expo '74 in Spokane, Washington more than 10% entered the counseling room for more information on the claims of Christ.

Similar results can be yours by following the film utilization plan outlined in this brochure. A well-planned, coordinated film series can make a real impact in your community. Read what some recent users say about the Moody science series. Their comments are at the bottom of this page.

For almost a third of a century, Moody films have thrilled folks on military bases and on television, in addition to millions in churches and homes. Moody Institute of Science films have been featured in national publications, such as, Look, Reader's Digest, Redbook, Popular Photography, Moody Monthly and many scientific journals. The founder of Moody Institute of Science, Dr. Irwin A. Moon, has been a pioneer and innovator in the motion picture industry. His early films are still considered to be classics and just as timely as when they were filmed.

While each film carries its own rich spiritual message, a series of films toward a commitment to Christ. Each film builds on the previous one, leading series, contact your Moody films dealer. Here you will find someone who can help you make a success of your series by supplying guidance, as well as publicity material, promotional fliers and posters, and booklets that make excellent handouts following film showings. Don't miss the substantial discounts available when a series of six or more Moody films is booked. The discounts are explained on the order form in this brochure.

It's our prayer that a Moody film series becomes a reality and a most effective outreach for you.

Cordially,

James W. Adams
James W. Adams
Manager

FREE FILMSTRIP SHOWING

An 18-minute, sound filmstrip demonstrating a unique concept in church outreach is available without cost or obligation. Use it to interest a church group, neighbors, business associates or friends in reaching your community with the gospel message. SERMONS FROM SCIENCE films are fascinating, scientifically correct and beautifully photographed. These films can have a tremendous impact in your community. Use the order form to reserve the filmstrip.

**Here are
reports from viewers
about the effectiveness
of Sermons from Science films!**

FROM A HOUSEWIFE IN CALIFORNIA:

"We were absolutely thrilled, encouraged, uplifted — on and on we could go, about the SERMONS FROM SCIENCE PAVILION at Expo '74. Surely many will come to know Him better through this effort."

FROM AN EXECUTIVE OF GOODWILL INDUSTRIES:

We would like to express our sincerest gratitude for your films which we showed to our employees here at Goodwill Industries. They were very well received in both of our two plants. We heard very positive comments about the films. Truly they were inspirational!

FROM AN ENGINEER IN MARYLAND:

Yesterday our committee met and decided to show the entire series again starting in June. That takes us through the rest of '76 and all of '77, the good Lord willing. We plan to show each film four times each month on two adjacent days.

In the meantime, the (W) (A second corporate location) is all geared up for lunch time showing of the entire series starting this month, independent of our showings. They formerly showed the films after work, but recently got permission for three noon-time showings each month.

Also, you may be aware that (Name of film committee chairman) has started the series in two (corporation name) locations near Philadelphia. He was all excited after their first film, and called to tell me about it.

FROM A METHODIST PASTOR IN MARYLAND:

I showed the film WHERE THE WATERS RUN . . . to my Church School . . . it was the best and most beautiful of all your science films. I am planning on showing it again on one of our Family Nights. I can highly recommend it to every denomination and to every age group over 7.

FROM A SCIENTIST IN NEW JERSEY:

For some time our church has shown your Sermons from Science films on a one-a-month basis. Three in our church work at the same research center. Since we have the film already rented for a given weekend we were interested in showing the film during lunch in the company auditorium. To do this the three of us, as well as other interested people at the research center, formed the Sermons from Science Film Club. We then obtained permission to show one film a month during lunch. Our joy over this opportunity to witness is so great that we wish to share it with you all at Moody Institute of Science.

At the OLYMPIC GAMES, WORLD FAIRS—or in your COMMUNITY SERMONS from SCIENCE FILMS are EFFECTIVE!

**Use the PROVEN PLAN:
the Series Approach
for Maximum Impact!
Let these films help you
be a visible witness.**

WHERE TO USE SERMONS FROM SCIENCE FILMS

FILM USAGE:

Here are some uses of SERMONS FROM SCIENCE films that have already proven to be successful. Perhaps you will think of others. To encourage a group to use these films in several places, there is a reduced rate for renting the films for several days and for showing the films more than once on a given day. A substantial discount is available when a series of films is used. Take advantage of the opportunities available in your community.

FAIRS — Moody science films have proven to be an effective tool for evangelism at local, county and state fairs. At a local fair, the continuous showing of SERMONS FROM SCIENCE films proves to be an outstanding attraction. At recent World's Fairs, SERMONS FROM SCIENCE films competed successfully with the national, state and industrial exhibits. Write for fair policy and guidelines.

SERVICE CLUBS — All Moody science films are 28 minutes in length, making them ideal for service clubs and other organizations. The films have been enthusiastically received and endorsed by the Kiwanis and Rotary Clubs as well as other service and business organizations.

NURSING HOMES & MEDICAL INSTITUTIONS — Medical facilities provide an excellent opportunity for alert Christians. Often these places are literally begging for attention. If you rent a series of films for several days, don't overlook this area of ministry. It brings rich rewards.

OFFICES, FACTORIES & STORES — Businessmen and industrial workers can be reached by showing a series of films during lunch hours. Effective film series have been conducted at many industrial concerns such as Bell Telephone, Kimberly-Clark, Exxon, McDonald Douglas and Lockheed. One Westinghouse plant has run a continuing series for over three years.

CAMPUSES — One of the most effective ways of witnessing to students is with Moody science films. These films interest the keen intellect and make great impact on the hearts and minds of students. If showings are to be on campus, permission must be obtained from school officials. To be most effective, arrange showings through established and recognized Christian groups on the campus, such as: Campus Crusade For Christ, Inter Varsity Christian Fellowship and Navigators.

PARKS/OUTDOOR SHOWINGS — During warm weather, outdoor showings prove to be successful. A weekly series

of films attracts hundreds who otherwise might not hear the gospel message, as many are reluctant to attend a church showing. City, county and state parks, church parking lots and shopping centers are among the outdoor opportunities that have been most popular.

HOMES — Individual homes and apartment recreation rooms are effective places to show a series of Moody science films. Neighbors, relatives and friends appreciate a social time, and the showing of an intriguing science film is an ideal climax to the evening. For those who have difficulty in verbalizing the "good news" this is a greatly appreciated vehicle to present the claims of Christ to those in their neighborhood.

CHURCHES — A Sunday (or weekday) evening series can add real impetus to church outreach and growth. Often friends and neighbors can be invited to church through a series of fascinating science films.

HOW TO USE SERMONS FROM SCIENCE FILMS

HELPFUL SUGGESTIONS

1. Use a series of films to achieve the cumulative effect. Worthwhile results can be obtained with a few films, but the more films in your series—the greater the impact.
2. Promote the series and the individual films. Posters and fliers are available at remarkably low cost from your dealer. Fliers are ideal reminders when inviting someone to a film and also are frequently used as Bulletin inserts for churches. If your showing is to be "public", you will want to use one of our publicity

packets which are also available at your Moody film dealer. In the publicity packet are a news release, and photograph that should be given to local newspapers. Promote the series and individual films on local radio and television stations as well. Many businesses will be glad to display a film poster in their window for you. Plan your promotional efforts in advance to make the most of your opportunity.

3. If intervals between the showings are too long, both the effect and the enthusiasm for the series diminish. Intervals longer than a month should be avoided. Daily or weekly showings have proved to be the best and

most effective way to use SERMONS FROM SCIENCE films.

4. Reinforce the message and effect of every film by giving each person a booklet about the film. These inexpensive booklets jog the memory, provoke discussion and insure maximum retention. In addition to showing some of the scientific material, Bible references supporting the film message are listed, giving the person an opportunity to refer to them in private.
5. Don't preach or allow yourself to be drawn into peripheral discussions. There is no faster way to alienate

those yet unreached than by attempts to force "a decision"—especially in a group situation. A personal testimony and an expressed desire to share on a personal level would be much more effective. Be patient! Have confidence in what the films can do. Allow the Holy Spirit time to reorient a life.

6. PRAY! Without prayer all your promotional efforts will have been wasted. Ask Christian friends to join you in remembering the film showings, asking that God will use them to open the hearts and minds of those who view the films.

Red River of Life

RED RIVER OF LIFE

God has a plan for man

Presents a fresh and dramatic approach to the story of the heart, the red blood cell and the circulatory system. Shows the first pictures ever made of the interior of an actual beating heart. Demonstrates, with a positive spiritual application, that "the life of the flesh is in the blood," as the Bible says.

HIDDEN TREASURES

God loves man

All creation is a vast storehouse of gems and priceless treasures of untold wealth. With a camera and microscope, we explore the intricate beauty of a snow crystal, a subterranean cave and desert flowers almost too small for the eye to see. God is revealed as Creator and Provider.

TO THE UNKNOWN GOD

Discover the Unknown God!

With special appeal to today's youth, the 20th Sermons From Science film charts the Greeks' brilliant history of achievement and quest for excellence. Yet, the Apostle Paul told them they did not know the one true God. Dr. George Sweeting narrates the film in the setting of Mars Hill, where Paul spoke in the first century. Beautiful color photography captures the beauty of both ancient and modern Greece and the excitement of the Olympiad. To The Unknown God is a provocative motion picture with a powerful message for our generation.

CITY OF THE BEES

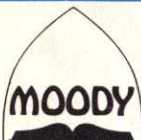

Man is more than animal

Since the beginning of human history, man has maintained a partnership with the bees . . . on the bee's own terms. Their fabulous insect city boasts air con-

NAME/ORGANIZATION

Apostle Paul told them they did not know the one true God. Dr. George Sweeting narrates the film in the setting of Mars Hill, where Paul spoke in the first century. Beautiful color photography captures the beauty of both ancient and modern Greece and the excitement of the Olympiad. To The Unknown God is a provocative motion picture with a powerful message for our generation.

CITY OF THE BEES

Man is more than animal

Since the beginning of human history, man has maintained a partnership with the bees . . . on the bee's own terms. Their fabulous insect city boasts air conditioning, police and sanitation squads, nurseries and an effective language that man has learned to "read". Men are struggling with the problem of human behavior. This film reveals God's solution.

DUST OR DESTINY

The existence of God

Reveals nature's fascinating phenomena; fish that lay eggs on dry land, bats that fly through total darkness without collision. The human eye, ear and heart are described in a manner that creates a sense of awe and reverence for God's creation. Scientific facts help the viewer realize he is the object of God's eternal care.

EMPTY CITIES

God's solution to man's emptiness

EMPTY CITIES explores and examines the amazing achievements of the Mayan and Incan cultures. Observing their present day descendants we ask . . . can they be accurately referred to as "primitives" or . . . would "decadents" be a more valid term? The film concludes by showing how the individual can find real fulfillment only through God.

FACTS OF FAITH

Man must trust God

Gives a new and important perspective to the relationship between the spiritual and physical worlds. A million volts pass through a human body; a goblet shatters at the sound of an electronic "voice." Demonstrates the scientific necessity for the new birth, and the assurance of the resurrection of the body.

GOD OF THE ATOM

Man is morally bankrupt

A different approach to the atomic bomb problem. Exclusive photos of equipment used in atomic research and demonstrations of tremendous energies are featured. Man's spiritual bankruptcy and his need for regeneration are stressed.

GOD OF CREATION

The Creator is the Saviour

With the aid of the telescope, microscope, and time lapse camera, we explore the immensity of space, the teeming world of a drop of water and other wonders of God's creation. The power and beauty of growing things evidence God's infinite care in all His creation.

HIDDEN TREASURES

God loves man

All creation is a vast storehouse of gems and priceless treasures of untold wealth. With a camera and microscope, we explore the intricate beauty of a snow crystal, a subterranean cave and desert flowers almost too small for the eye to see. God is revealed as Creator and Provider. Life's greatest treasure is to know Him as our Heavenly Father.

IN THE BEGINNING . . . GOD

God's creative power revealed

Traces the phenomenal growth of Radio Astronomy from its humble, almost accidental beginning. Raises some fantastic, yet fundamental questions regarding the nature and origin of the universe and suggests some astounding answers. Culminates in a powerful presentation of man's need for a personal "in-the-beginning-God" experience.

MYSTERY OF THREE CLOCKS

Man has power to choose

Science recognizes that although the human brain possesses a highly developed "alarm clock" mechanism, it cannot compare with the cicada's ability to "tell time." This film introduces the "will of man" and concludes that although man can make his own choice, he cannot control the result of that choice.

OF BOOKS AND SLOTHS

The Bible is unique

The sloth, nature's champion sluggard, as recently as a century ago, was regarded as a "blunder of nature." Recent research reveals how beautifully this creature is fitted for life in its environment. The film emphasizes the dependability and accuracy of the Scriptures.

PRIOR CLAIM

God rules over man

Nature had it first! The inventions of man were anticipated by the Creator. The door was an early invention, but the trapdoor spider had it before man. The film shows many creatures applying principles which have all predated man's inventions. It is God who has prior claim, not only to inventions and ideas, but also on human lives as well.

PROFESSOR AND THE PROPHETS

The Bible record is accurate

Is the accuracy of Bible prophecy due to human guesswork or to divine inspiration? Dr. Irwin A. Moon discusses the question with mathematician, Professor Peter Stoner. There is only one logical conclusion: the Bible has been produced — not by human invention — but by God speaking through His chosen servants.

RED RIVER OF LIFE

God has a plan for man

Presents a fresh and dramatic approach to the story of the heart, the red blood cell and the circulatory system. Shows the first pictures ever made of the interior of an actual beating heart. Demonstrates, with a positive spiritual application, that "the life of the flesh is in the blood," as the Bible says.

SIGNPOSTS ALOFT

The basic nature of faith

The exciting story of instrument flight. Sit in the cockpit and sense a feeling of helplessness as we search for a missing plane amid snow covered mountain tops. Hear the last desperate cry of a completely disoriented pilot in a graveyard spin. With Col. John Glenn, find a fresh understanding of why man needs a point of reference outside himself and what a commitment to God really means.

TIME AND ETERNITY

God is infinite and timeless

Here is a film in the fourth dimension . . . TIME. It is both beautiful and terrifying. A split second is magnified; days and weeks are compressed into minutes. The reality of eternity is seen as scientific fact. An infinite God of time, space and eternity offers the solution to life's one absolute necessity — forgiveness.

ULTIMATE ADVENTURE

An encounter with God

Restless men seeking new adventure, attempt the impossible . . . crossing the vast formidable Sahara Desert on motorcycles. Men and machines are pitted against the scorching sun and sand in a life and death struggle that ends in a dramatic encounter with God. Actually filmed by the first men to cross the Sahara on motorcycles.

VOICE OF THE DEEP

Man needs spiritual insight

Using the latest techniques in underwater photography and sound recording, this film explores the "silent-deep" only to find it exploding with sound. We are shown that man not only needs new "ears" with which to hear beneath the sea but that he needs a new life to fathom the depths of the spiritual realm as well.

WHERE THE WATERS RUN

God's perfect provision

An exploration of the uniqueness, amazing properties and value of the natural resource upon which we are totally dependent for life. Shows what makes the difference between the barrenness of the moon and the abundant life of the earth. Presents the similarities between physical water and "Spiritual Water" found in Christ.

WINDOWS OF THE SOUL

Man's senses are limited

This film shows the wonder and mystery of our senses and demonstrates their very real limitations. Considering the entire spectrum of electromagnetic and sound waves, it reveals that we are almost totally blind and deaf. These scientific facts show the folly of basing eternal judgments on what we know through our senses.
